The Future We Want: Transforming Leadership, Accelerating Innovation and Unlocking Imagination

Photo credit: Leslie Silva

The Future We Want is a call to action.

Together at the 2019 Sun Valley Forum we will accelerate the transformation to sustainable, equitable, and secure – resilient – economies and communities.

The Sun Valley Institute's fifth annual Sun Valley Forum will gather several hundred leaders and luminaries, trailblazers and change-makers from across the globe for three days together to build the future we want. Each year the Forum sparks new cross-sector collaborations, mobilizes capital towards promising ideas, and inspires uncommon thinking.

Accelerating environmental harm is a threat multiplier to our economically interdependent world and calls for urgent, proactive leadership to build resilience. This year our task is informed by the World Economic Forum's 2019 Global Risks report, **Out of Control**, which named the top two risks facing our globe as: extreme weather events and the failure of climate change mitigation and adaptation. Environment-related risks account for three of the top five risks by likelihood and four by impact. The 2018 Intergovernmental Panel on Climate Change (IPCC) report warns of significant changes to the earth's life support systems in the next decade, and here in the U.S., the devastating California fires illustrate how much is at stake.

Fortunately, leaders and innovators are showing the way forward with the strategies, technologies, business models and partnerships needed. The UN Sustainable Development Goals and initiatives including One Earth and Project Drawdown are galvanizing action toward the greatest opportunities for impact. We will showcase solutions and deliver inspiration as well as direct results, catalyzing new projects and partnerships at the action-filled Forum.

Finally, we are excited and honored to be hosting the inaugural **Claiming Our Future: Youth Action for a Resilient World**, a parallel gathering organized by and for high school leaders from across the nation to inspire ideas, share experiences and empower action.

***We are pleased to present our 2019 program to build the future we want by transforming leadership, accelerating innovation and unlocking imagination.
Join us!***

Swell®

Beautiful.
Sustainable.
Charitable.

Swell combines **style** and **performance** with purpose to help sustain positive change in the world.

Shop swellbottle.com and take the Million Bottle Project pledge to help us **displace 100 million single-use plastic bottles** by 2020.

100MILLION
2020

Thanks to Sarah Kauss and S'well, the Sun Valley Institute will be fundraising to end single-use plastic in our community with special S'well reusable bottles! This initiative is a part of the company's Million Bottle Project to help eliminate the use of 100 million water bottles by 2020. The 25oz Wenge Wood bottles are available for purchase at the Sun Valley Forum and other Sun Valley Institute events. Funds raised will support programs focused on reducing waste and promoting sustainable practices.

If you're lucky, your bottle will have in it a "secret stash" prize!

S'well®

9am **Optional Hikes**

Join us for your choice of a morning hike – all levels
Meet in the Limelight Hotel Lobby

11am-6pm **Registration:** Lobby of the Argyros Performing Arts Center

Enjoy the VR (virtual reality) experiences hosted by Conservation International

All day: Limelight Hotel Lobby

Bid on the gorgeous prints by Benjamin Von Wong

All day: Von Wong in the Argyros Lobby

Tour electric and Biodiesel buses

All day: Forest Service Park

2pm **Forum Opening:** Argyros Tierney Theater

Setting The Stage: Building The Future We Want By Transforming Leadership, Accelerating Innovation And Unlocking Imagination

Opening Keynote Session

“Wayfinding The Future We Want”

Louis Psihoyos, Filmmaker, Executive Director, Oceanic Preservation Society

“Transforming Leadership for the Future We Want”

Dr. Martin Chungong, Secretary General, Inter-Parliamentary Union

“Accelerating Innovation for the Future We Want”

Meagan Fallone, CEO, Barefoot College International

“Unlocking Imagination for the Future We Want”

Jennifer Morris, President, Conservation International

Host: Welcome by [Aimée Christensen](#), Founder, Sun Valley Institute & Sun Valley Forum

3:05pm **The Future We Want: One Earth**

The theme of the 2019 Forum is a call to action to build the future we want by leveraging successful solutions being pioneered worldwide. Justin Winters, Executive Director of One Earth will host this session with Mitch Anderson of Amazon Frontlines about how winning strategies to strengthen indigenous rights can ensure the future we want.

Host: [Justin Winters](#), Executive Director, One Earth

Speakers: [Mitch Anderson](#), Executive Director, Amazon Frontlines

3:35pm **The Future We Want: AI for Earth**

Artificial intelligence can be a powerful tool to scale up and accelerate our impact for resilience worldwide. Hear about how Microsoft’s AI for Earth is partnering with over 300 (and growing!) organizations including the Leonardo DiCaprio Foundation and the National Geographic Society as well as grassroots groups and local communities to benefit solutions from fire mitigation to wildlife conservation!

Speaker: [Bonnie Lei](#), AI for Earth Project Manager, Microsoft

3:50 pm

THE FUTURE WE WANT: OUR INDIVIDUAL AND PLANETARY HEALTH

Flowing through our veins, and flowing from our rivers into our oceans, are man-made chemicals that put our individual health and the health of our planet at risk. But we are on the cusp of exciting new action to make us, and our planet, healthier. Michael Green will share with you innovative collaborations and solutions that are underway to protect our health and the health of our planet.

Speaker: [Michael Green](#), CEO, Center for Environmental Health

4pm **Transforming Leadership: Inspiring, Engaging, Activating the Public for the Future We Want**

*David Gelber is co-founder and chairman of The Years Project. He served as Ed Bradley's producer at 60 Minutes® for twenty-five years, during which he won every major journalism award, including a Peabody, two DuPont Awards and eight Emmy® Awards. Gelber and Joel Bach left 60 MINUTES in 2011 to create the Emmy-winning series **Years of Living Dangerously** and have focused on communicating stories about the climate crisis ever since. "I covered about ten war zones in my years at 60 MINUTES, but this story, global warming, is just as dramatic -- and more important -- than any of them."*

Speaker: [David Gelber](#), Creator & Executive Producer, *Years of Living Dangerously*

4:15pm **Transformative Leadership for the Future We Want**

In 2018, Jacinda Ardern, the Prime Minister of New Zealand announced that the nation would be where "success is measured not only by the nation's GDP but by better lives lived by its people." Hear how New Zealand is following in the footsteps of Bhutan, prioritizing citizen wellbeing over short term economic benefit, with its "Well-Being Budget" just launched in June 2019.

Speaker: [Mark Prain](#), Founding Director, Hillary Institute of International Leadership

4:30pm **Transforming Leadership: Women In Front**

Women in leadership are showing how diverse perspectives deliver better outcomes, whether for profit, people and/or planet. Hear from women leaders across government, business, investment science and advocacy how they are supporting women in leadership and the results!

Host: [Amanda Ellis](#), Executive Director Hawaii & Asia-Pacific, ASU Julie Ann Wrigley Global Institute of Sustainability

Speakers: [Kristin Hull](#), Founder & CEO, Nia Impact Capital
[Ellen Jackowski](#), Global Head of Sustainability Innovation, HP
[Laura Liswood](#), Secretary General, Council of Women World Leaders
[Jennifer Morris](#), President, Conservation International

5:10pm **Transforming Leadership: Building Community & Connection**

Ready to be inspired and moved to action? These three leaders are powerful advocates for building opportunity and community, reminding us of the connections we need to thrive, with each other and with all creatures, great and small.

Speakers: [Mark Brand](#), CEO - MB Inc. & A.B.L.F. | Exec. Chef - American Refugee Committee | Professor of Innovation - USC

Dr. Susan Erich, Founder & Executive Director, Earthfire Institute Wildlife Center & Retreat Center

Tyler Norris, Chief Executive, The Wellbeing Trust

6-7pm **VIP Reception:** *The Warfield Distillery & Brewery*

7-10pm **Reception & Dinner:** *The Warfield Distillery & Brewery*

WEDNESDAY, JULY 24, 2019

8am **Coffee And Light Breakfast:** *The Argyros Lobby*
Enjoy Hawaiian Cloud Forest Coffee
Enjoy the VR (virtual reality) experiences hosted by Conservation International
All day: Limelight Hotel Lobby
Bid on the gorgeous prints by Benjamin Von Wong
All day: Von Wong in the Argyros Lobby
Tour electric and Biodiesel buses
All day: Forest Service Park

8:30am **Forum Day 2 Opening:** *Argyros Tierney Theater*

Transforming Leadership: Youth Claiming The Future

Youth are claiming their future, demanding action and building networks globally to transform the power dynamic between youth and adults. Hear from leaders who are raising their voices and mobilizing millions, reminding all of us of our duty to lead.

Host: Eamonn Store, Founder & CEO, FairShare

Speakers: Vic Barrett, Co-Plaintiff, Juliana v. The United States of America & Action Fellow, Alliance for Climate Education
Jonah Gottlieb, Executive Youth Director, National Children's Campaign & Executive Director, Our Future Now
Ruby Horton, Founder, Sun Valley Institute Youth Council
Kelsey Cascadia Rose Juliana, Lead Plaintiff, Juliana v. The United States of America & Co-Plaintiff in Chernaik v. Brown
Jamie Margolin, Co-Founder and Co-Executive Director, Zero Hour & Co-Plaintiff in Aji P v. State of Washington

9:10am **Accelerating Innovation: Islands As Innovation Laboratories**

For millennia, islands have been centers of diversity and sources of innovation, generating scalable solutions that work. Island innovators will share their new approaches, business models and technologies so we might learn, replicate and collaborate with them to accelerate our impact.

Host: Amanda Ellis, Executive Director Hawaii & Asia-Pacific, ASU Julie Ann Wrigley Global Institute of Sustainability

Speakers: John Bailey, Co-Founder, Hawaiian Cloud Forest Coffee, Hawaii
Brynn Foster, Founder, Voyaging Foods, Hawaii
Anake Goodall, Chair, Hillary Institute of International Leadership, New Zealand
Henk Rogers, Blue Planet Foundation, Hawaii
Austin Shelton III, Asst. Professor of Extension & Outreach, University of Guam Center for Island Sustainability

10am Accelerating Innovation: Transforming The Food System

Traditional agriculture is highly-concentrated, centralized and a major source of environmental harm, but regenerative agriculture can be a major solution to our climate and community challenges and deliver prosperity for our farmers and rural communities. Healthy soils nurtured by regenerative agriculture absorb carbon and hold water better, resisting drought and helping to prevent floods, delivering greater productivity and resiliency. Regenerative agriculture can build rural economies and help to stabilize our climate. Hear how innovators and advocates are transforming our food system into a powerful force for human and environmental health and community prosperity.

Host: **Kate Geagan**, Principal and Founder at Kate Geagan, America’s Green Nutritionist

Keynote: **Robyn O’Brien**, Vice President, RePlant Capital

Keynote: **John Piotti**, President & CEO, American Farmland Trust

Speakers: **Noah Deich**, Executive Director, Carbon 180
Dayna Gross, Senior Corporate Engagement Advisor, Global Agriculture, The Nature Conservancy
Bonnie Lei, AI for Earth Project Manager, Microsoft
Renske Lynde, Co-Founder & Managing Director, Food System 6 Accelerator
Dr. Cristine Morgan, Chief Scientific Officer, Soil Health Institute
Jin Yang, Culinary Director, Boise Co-op

11:30am Accelerating Innovation: The Energy Transformation

There is a rapid energy transformation underway around the world to build resilient, clean, reliable, cost-effective and job-creating energy systems, but how do we move more quickly at scale? This conversation among utilities, buyers, and innovators will inform what is needed and how we get there.

Host: **Amy Lientz**, Director of Partnerships, Engagement and Technology, Idaho National Laboratory

Spark Talk: **Kathy Araújo**, Director, Energy Policy Institute-Center for Advanced Energy Studies/Boise State University

Speakers: **Shelley Cohen**, Director of Solar Programs, DC Sustainable Energy Utility
Amy Davidsen, Executive Director, The Climate Group, North America
David Livingston, Deputy Director, Atlantic Council Global Energy Center
Tatjana (Tanja) Vujic, Director, Biogas Strategy, Duke Energy

12:15pm Lunch: *Limelight Hotel Deck*
Enjoy the VR (virtual reality) experiences hosted by Conservation International
All day: *Limelight Hotel Lobby*
Bid on the gorgeous prints by Benjamin Von Wong
All day: *Von Wong in the Argyros Lobby*
Tour electric and Biodiesel buses
All day: *Forest Service Park*

2pm Transforming Leadership to Protect Our Public Lands

America’s public lands are an asset for their natural resources, recreation and enjoyment. What is the state of our public lands and what does it mean for our climate and for the communities surrounding them?

Host: [Felicity Barringer](#), Bill Lane Center for the American West, Stanford University

Speakers: [Isaac Brown](#), Executive Director, Business Coalition for Conservation and Climate
[Stephenne Harding](#), Senior Campaign Director Campaign for Nature, National Geographic Society
[Jim Lyons](#), Former Under-Secretary for Natural Resources, U.S. Department of Energy & Former Deputy Assistant Secretary for Land Management, U.S. Department of the Interior

2:35pm Transforming Leadership: Changing What We Value

Major banks, foundations, and family offices worldwide are recognizing the need both to mitigate climate change risks facing their portfolios as well as to tap into strategic opportunities to invest in climate solutions such as food and energy. Hear from the first major bank to make a commitment to divest from fossil fuels; about climate risk from the world's largest asset manager; from an entrepreneur incubating solutions companies - and hear how investors are thinking about what this means for what to invest in, and when!

Host: [Julie Davitz](#), Head of Impact Solutions, BNP Paribas / Bank of the West

Spark Talk: [Ashley Schulten](#), Head of Responsible Investing, Global Fixed Income, BlackRock

Speakers: [Daniela Fernandez](#), Founder & CEO, Sustainable Ocean Alliance
[Jennifer Kenning](#), CEO and Co-Founder, Align Impact

3:05pm Accelerating Innovation: Investing in Disruptive Technology for a Net Positive World

Recent calls for investing in reforestation claim that it is perhaps the fastest, most cost effective and multi-benefit solution pathway to drawdown. Hear from inventor, physicist, and Google X Co-Founder on the power of innovating in concert with nature to open economically self-amplifying pathways to scalable restoration.

Speaker: [Tom Chi](#), Inventor | Leader | Coach | Speaker

3:20pm Accelerating Innovation: Investing For Drawdown

Project Drawdown, "the most comprehensive plan ever proposed to reverse global warming," identified the top 100 solutions to global warming. Hear how investors are strategically driving capital into these powerful and growing sectors.

Speakers: [Colin le Duc](#), Founding Partner, Generation Investment Management
[Erik Snyder](#), Entrepreneur, Investor, CEO & Founder, Drawdown Fund
[Matthew Weatherley-White](#), Co-founder & Managing Director, The Caprock Group

3:45pm "Political Climate" Podcast Presented by the USC Schwarzenegger Institute: Argyros Tierney Theater

Political Climate is the only podcast offering a look inside the trenches of how energy and climate decisions get made and the political interests powering them. The podcast offers a bipartisan platform for constructive debate on energy and environmental issues in America and is presented by the USC Schwarzenegger Institute and the Leonardo DiCaprio Foundation. Julia Pyper, contributing editor at Greentech Media, moderates the show with co-hosts Brandon Hurlbut, former Department of Energy

Chief of Staff and Obama White House Deputy Director of Cabinet Affairs, and Shane Skelton, former energy advisor to Bob Latta (R-OH) and to former House Speaker Paul Ryan (R-WI). Join the Political Climate team and a special guest for this live on stage taping!

Host: Julia Pyper, Contributing Editor, Greentech Media & Host, Political Climate Podcast

Speakers: Brandon Hurlbut, Co-founder & Partner, Boundary Stone Partners
Shane Skelton, Co-founder & Partner, S2C Pacific

Guest: Nathaniel Stinnett, Founder & Executive Director, Environmental Voter Project

4:30pm Innovation Laboratories, Youth Pitches, or FUN!

The Forum has a record of sparking new cross-sector collaborations, mobilizing capital towards promising ideas, and inspiring uncommon thinking. To drive even greater impact, in addition to main stage sessions, we are hosting action-oriented working sessions called "Innovation Laboratories" and will have four sessions held simultaneously, where participants can roll up their sleeves to work together in a more focused way to drive impact, connect with the Youth Forum participants to support their impact, or have fun with Fun Delivery in the park!

A: Transforming Energy for The Future We Want: Limelight Hotel, Silvercreek Room

We will continue the discussion from the main Forum session: There is a rapid energy transformation underway around the world to build resilient - clean, reliable and cost-effective job-creating - energy systems, but how do we move more quickly at scale? This collaborative working session will provide the opportunity for us to identify gaps and needs and aim to spark new action. Our host will help guide the conversation with key participants including our panelists from the main stage.

Hosts: Amy Lientz, Director of Partnerships, Engagement and Technology, Idaho National Laboratory
Tim Profeta, Director, Nicholas Institute for Environmental Policy, Duke University

B: Transforming Food & Agriculture for The Future We Want:
Limelight Hotel, Silvercreek Room

We will continue the discussion from the main Forum session: Industrial agriculture is highly-concentrated, centralized and a major source of environmental harm, yet regenerative agriculture can be a major solution to our climate and community challenges and deliver prosperity for our farmers and rural communities. Healthy soils nurtured by regenerative agriculture absorb carbon and hold water better, resisting drought and helping to prevent floods, delivering greater productivity and resiliency. Regenerative agriculture can build rural economies and help to stabilize our climate. Hear how innovators and advocates are transforming our food system to be a powerful force for human and environmental health and community prosperity. This collaborative working session will provide the opportunity for us to identify gaps and needs and aim to spark new action with a particular focus on regenerative agriculture. Our host will help guide the conversation with key participants including our panelists from the main stage.

Hosts: Noah Deich, Executive Director, Carbon 180
Kate Geagan, Principal and Founder at Kate Geagan, America's Green Nutritionist

C: Youth Forum Pitch Session: Argyros Tierney Theater

Great ideas need to be communicated well in order to have impact. This fun and informal pitch session will be an opportunity for the Youth Forum to share their work and collaborate with topic experts and Main Forum attendees on the center stage. Hear their pitches of solutions for plastics, food and transportation, to learn, provide feedback and collaborate!

Host: **Richard Greene**, Communications Guru and author of *Words that Shook the World: 100 Years of Unforgettable Speeches and Events*

D: Have Fun with FUN.delivery: Forest Service Park

Join FUN.delivery and Fashion First Aid founder Kim Castellano for fun and games in the park across the street from the Limelight Hotel deck. Fun for all ages!

Host: **Kim Castellano**, Founder & CEO, FUN.delivery

6pm **Reception & Dinner:** *Limelight Hotel Deck*

6:45pm **Dinner Address:** **Daniel Dart**, Extreme Social Impact Entrepreneur

Daniel Dart is an extreme social impact entrepreneur, whose life experiences -- lead singer of a punk rock band, prison, and now global community-building in conflict zones -- have informed his fearless approach to impact. You think you can't do something or it is too intractable? Daniel will shake up your assumptions and challenge us all to do - and be - more!

Host: **Eamonn Store**, Founder, FairShare

7:30pm **Special Screening:** **THE BIGGEST LITTLE FARM**

THE BIGGEST LITTLE FARM chronicles the eight-year quest of John and Molly Chester as they trade city living for 200 acres of barren farmland and a dream to harvest in harmony with nature. Through dogged perseverance and embracing the opportunity provided by nature's conflicts, the Chester's unlock and uncover a biodiverse design for living that exists far beyond their farm, its seasons, and our wildest imagination. Featuring breathtaking cinematography, captivating animals, and an urgent message to heed Mother Nature's call, **THE BIGGEST LITTLE FARM** provides us all a vital blueprint for better living and a healthier planet.

Speakers: **Amy Mattias**, Co-Director, Local Food Alliance / Food & Farm Program, Sun Valley Institute
John Piotti, CEO, American Farmland Trust

THURSDAY, JULY 25, 2019

8am **Coffee And Light Breakfast:** *The Argyros Lobby*
Enjoy the VR (virtual reality) experiences hosted by Conservation International
All day: *Limelight Hotel Lobby*
Bid on the gorgeous prints by Benjamin Von Wong
All day: *Von Wong in the Argyros Lobby*
Tour electric and Biodiesel buses
All day: *Forest Service Park*

8:30am **Forum Day 3 Opening: Argyros Tierney Theater**

The Future We Want: Military Leadership For Climate Security

Military leaders see firsthand the urgent and growing “threat multiplier” impact of climate change on global stability: from water shortages to sea-level rise, food supplies are at risk. Droughts and floods send desperate migrants fleeing, bringing groups into conflict. Hear these leaders’ insights and call to action.

Host: **The Honorable Sherri Goodman**, Senior Advisor for International Security, Center for Climate and Security and Secretary General of the International Military Council on Climate and Security (IMCCS)

Speakers: **Lieutenant General Arlen “Dirk” Jameson** (Ret.), United States Air Force, Advisory Board Member, The Center for Climate and Security
Admiral Paul Zukunft (Ret.), 25th Commandant of the United States Coast Guard

9:15am **Transforming Leadership: Veterans Lead Our Climate Emergency Response**

Hear from the co-founder of Elected Officials to Protect America, who served in Iraq and Afghanistan, about the team of elected officials who are veterans, now mobilizing across the United States to combat our climate crisis.

Speaker: **Alex Cornell du Houx**, President / Co-Founder, Elected Officials to Protect America

9:25am **Accelerating Innovation: Cities As Innovation Laboratories**

In a rapidly changing world, leaders and innovators who are working to ensure urban resilience discuss how to make our communities affordable, healthy and resilient.

Speakers: **Ksenia Koban**, Vice President, Payden & Rygel Investment Management
Adam Marvel, Managing Director, Imfoco
Bruno Sarda, President, CDP North America
Steve Wysmuller, Global Lead Meteorologist, IBM/The Weather Company

10:00am **Accelerating Innovation: Building Rural Resilience**

Rural communities are facing sudden impacts from our changing world, from the energy transition, trade conflicts, and climate impacts such as fire and drought. There is an opportunity for rural resilience to instead build lasting economic opportunity with diversified economies and quality year-round jobs. This panel will share their vision and strategies for our rural resurgence.

Moderator: **Kirk Siegler**, Correspondent, NPR

Interview: **Hilary Franz**, Commissioner of Public Lands, State of Washington

Speakers: **Emily Niehaus**, Mayor of Moab, Utah
Darren Parry, Chairman, Northwestern Band of the Shoshone Nation
John Piotti, President & CEO, American Farmland Trust
Dr. Burton Webb, President, University of Pikeville

10:55am **The Future We Want: Insurers Driving Resilience**

The role of insurance in addressing climate change is important, complex, and largely opaque to the public. We'll hear from a state insurance commissioner, a leader in the insurance industry, an international insurance regulator and a journalist who covers

these topics, about how this industry which makes up 3 percent of the U.S. economy is addressing climate change and catalyzing action by others.

Host: [Jay Bruns](#), Senior Climate Policy Adviser, Office of the Insurance Commissioner, State of Washington

Speakers: [Jodi Bond](#), Executive Vice President, Global Government & Industry Affairs, Chubb
[Don Jergler](#), Western Region Editor, Insurance Journal
[Mike Kreidler](#), Insurance Commissioner, State of Washington
[Olaf Sleijpen](#), Director of Insurance Supervision, Central Bank of The Netherlands

11:55am Accelerating Innovation: Mainstreet 2.0 - Brining the Best of Wall Street to Main Street

Main Street 2.0 represents the best of both Wall Street and Main Street. What if we could invest with our values, leveraging all of our resources from philanthropic to investment capital? What if access to capital was available to every nonprofit, small business, start-up, cooperative, or fund? What may seem to be a pipedream is all possible if we educate and activate both the capital and social ventures. What we need to do is reimagine what is possible and to create a Main Street 2.0 that combines the best of what we had with Main Street relationship banking over 100 years ago with the benefits of Wall Street's technology and risk products.

Speaker: [Steph Gripne](#), Founder and CEO, Impact Finance Center

12:05pm Accelerating (Clean Energy) Innovation: The Bright Side of Opportunity Zones

While some are rightly skeptical about the promise of Opportunity Zones with real estate, this new Federal tax incentive is actually a high impact opportunity to invest in clean energy projects and companies in low-income areas in need of low-cost electricity with high resiliency, creating quality jobs and clean air. Hear from a practitioner about how this new vehicle can drive a "trifecta" of beneficial impacts!

Speaker: [Jon Bonanno](#), CXO, New Energy Nexus

12:15pm Lunch: Limelight Hotel Lobby & Deck

Enjoy networking and locally sourced food!

Working Lunch: **Turning Risk Into Opportunity: Islands, Coasts & Oceans**

Working Lunch: **Building Rural Resilience Across America**

2pm Accelerating Innovation: Solving Ocean Plastic Pollution

Ocean plastics have rapidly become a global crisis, threatening food systems, ocean tourism and life in our seas. Hear from the innovators in philanthropy, advocacy and business who are scaling solutions to protect our oceans and solve the plastic pollution crisis.

Host: [Emma Riley](#), Director of Strategic Partnerships, Lonely Whale Foundation

Spark Talk: [Holly Kaufman](#), Author, *No Such Place As "Away": Plastic Pollution in the Oceans*, Interaction Council

Speakers: [Richardson Antoine](#), Haiti Field Manager, Thread International
[Ellen Jackowski](#), Global Head of Sustainability Strategy & Innovation, HP
[Benjamin Von Wong](#), Artist & Activist

2:50pm Unlocking Imagination: Storytelling for the Future We Want

How do we engage audiences to be inspired to act and to advocate for the future

we want? Hear from award-winning storytellers from television, film, advocacy and marketing about the strategies that work!

Host: **Geof Rochester**, Founder, GRC Consulting

Speakers: **Christi Cooper**, Director, Youth vs. Gov, Barrelmaker Productions
Peter Horton, Writer/Director/Producer & President, Pico Creek Productions
Louis Psihoyos, Filmmaker, Executive Director, Oceanic Preservation Society
Sarah Finnie Robinson, Founding Director, The 51 Percent Project

3:45pm "Claiming the Future We Want" Livestream

What is the next generation doing and calling for to claim their future and build the future they want? Hear from the Sun Valley Youth Forum on the products of their labor and passion!

Host: **Julia Pyper**, Host, Political Climate Podcast & Contributing Editor, Greentech Media

Speakers: **Youth Forum Representatives**

4pm Closing Session & Call to Action

Solving our global challenges requires entrepreneurs and innovators leading alongside policymakers, major corporations and community leaders. Hear from S'well's founder and CEO about the leadership, courage and vision driving their mission to rid the world of plastic bottles.

Keynote: **Sarah Kauss**, Founder & CEO, S'well

4:45pm End

5 & 6pm Buses to Galena Lodge

7pm Closing Celebration: Galena Lodge

BBQ & Hayrides!

FRIDAY, JULY 26, 2019

Adventure Day!

Join us for one of these local adventures:

- Raft the iconic Salmon River (additional cost)
- Spend the day at Alturas Lake
- Nature Hikes
- Mountain Biking (additional cost)
- Fly Fishing (additional cost)

For full descriptions, visit www.sunvalleyforum.com/adventure-day/

To sign up for an activity, please visit the Forum Registration desk

THIS ARTWORK BENEFITS

WORK

Speaker Benjamin von Wong, Artist and Activist, has donated a beautiful piece of art on canvas to be auctioned with proceeds to support waste collectors at the first mile of supply chains through WORK.

WORK, a non-profit organization whose mission is to accompany families in Haiti out of poverty through good, dignified jobs, is a founding partner of the First Mile, an initiative that supports micro-economies in underdeveloped communities by collecting plastic bottles to support entrepreneurs and prevent waste from reaching landfills and oceans. In particular, WORK applies their wrap-around service model to children and parents in landfills to end undignified child labor in the first mile of supply chains.

Proceeds from the auction will support children living on the landfill with an education and their families with access to medical care. Parents in the program are supported through WORK's life skill and job training programming, along with small business loan opportunities.

To learn more, go to www.dowork.org or [@doworkorg](https://twitter.com/doworkorg). If you're interested in getting involved or joining us for a trip to Haiti, email vivien@dowork.org.

Thanks to Sun Valley Forum for the opportunity to collaborate and amplify our collectors' work.

BNP Paribas

— Euromoney, Wednesday, July 10, 2019

Through thoughtful and innovative community initiatives, as well as changes to policies and product development, BNP Paribas is helping to implement the United Nation's sustainable development goals.

Latest No-Idle Technology

Idaho National Laboratory invites you to see the latest technology in no-idle HVAC systems for charter buses and SUV vehicles. Battery and solar work together in powering the eClimaCoach and Nite Hawk-S to significantly reduce carbon emissions.

The bus and SUV will be on display at Forest Service Park during the 5th annual Sun Valley Forum, held at the Argyros Theater, 120 Main St. South, in Ketchum, Idaho. Viewing will be available each day from Tuesday, July 23, through Thursday, July 25. Visit <https://www.sunvalleyforum.com/> for more information.

Thank you
to Sun Valley Institute board member
Julie Ann Wrigley
for her early and generous support and leadership

The Julie Ann Wrigley foundation contributes to environment, education and healthcare in our local communities.

Solutions, engagement, education and research to enable better lives.

The Julie Ann Wrigley Global Institute of Sustainability is the hub of Arizona State University's sustainability initiatives. The ASU Wrigley Institute advances research, education and business practices for an urbanizing world. Its School of Sustainability, the first of its kind in the U.S., offers transdisciplinary degree programs focused on finding practical solutions to social, economic and environmental challenges.

Vision for Sustainability at ASU

ASU is a leader in the global movement to address the enduring challenges of sustainability: promoting human prosperity and well-being for all, while protecting and enhancing the earth's life support systems. By extending the academic tradition to include all ASU units and working with external partners, we educate, discover solutions and implement practices that will help people drive the transition to a sustainable world.

Claiming Our Future: Youth Action for a Resilient World

Welcome to the inaugural Youth Forum, **Claiming Our Future: Youth Action for a Resilient World**, organized by and for high school students from across the nation with an interest in sustainability and resilience. These students seek to develop solutions to the challenges we face, locally and globally to people and the planet. Running parallel to the Sun Valley Forum, the Youth Forum was created to inspire ideas, share experiences, and empower action.

This year our task is informed by the World Economic Forum's 2019 Global Risks report, ***Out of Control***, which named the top two risks facing our globe as: extreme weather events and the failure of climate change mitigation and adaptation. Environment-related risks account for three of the top five risks by likelihood and four by impact. The 2018 Intergovernmental Panel on Climate Change (IPCC) report warns of significant changes to the earth's life support systems in the next decade. Recent disasters, such as the devastating California fires illustrate how much is at stake.

Youth engagement and action is more important than ever as we race towards this uncertain future. The Sun Valley Youth Council was founded on the understanding that the climate crisis is an issue of generational justice. The young people of today will be more heavily burdened by the impacts of climate change than any generation before and it jeopardizes their future. It is therefore time for us to **Claim Our Future**. The Youth Council is excited to welcome peers and role models as we engage in an action oriented schedule.

TUESDAY, JULY 23, 2019

- 1:30 - 2pm** Youth Forum Soft Opening: *Argyros Bailey Studio*
- 2 - 6pm** **Inspire Ideas:** *Argyros Tierney Theater*
Youth Forum Programming: See forum programming for full details

THE SUN VALLEY INSTITUTE

About & Mission

The Sun Valley Institute (SVI) is a catalyst for lasting quality of place, advancing economic, ecological and social resilience by pioneering transformative solutions, driving awareness and convening leaders and innovators for global and local impact.

Resilience is about surviving and thriving,
regardless of the challenge.

Sun Valley leaders founded the Institute in the spring of 2015 to protect and enhance local quality of place for future generations of residents and visitors alike, and to serve as a resource for communities everywhere. As economic interdependence and environmental disruptions critically threaten quality of life around the world, SVI transforms economic, environmental, and social challenges into opportunities and prosperity. Locally, the Institute has initially focused on **food, energy and land use**: Blaine County is one of the most expensive counties in the country for food, so we are increasing local food production and distribution, working with our schools, restaurants, stores, and farmers. We are increasing local energy production and making critical emergency and communications infrastructure more secure. And we are building new land-use strategies that restore and benefit nature, produce local food and energy, provide housing and otherwise contribute to the community. SVI scales its impact by serving as a resource to other communities and by gathering hundreds of global innovators at our acclaimed annual **Sun Valley Forum, connecting ideas, catalyzing partnerships and mobilizing capital**. SVI is making Blaine County the place where global innovators want to gather and share strategies, pilot new efforts, and together, accelerate impact.

From the original Native American inhabitants to the miners and ranchers of the valley's early days, from the Union Pacific engineers who built the world's first chairlift to those who challenge themselves in its mountains and rivers today, Sun Valley is about history and tradition, grit and perseverance, wellbeing and quality of life. The risks, assets and values of Sun Valley make it the perfect home for an institute dedicated to resilience.
